Top Skills

Full-Stack Development
React.js
Node.js

Deepak Kiriti

Jr Software Developer
Hyderabad, Telangana, India

Summary

Hi there! I'm a full-stack web developer, I absolutely love what I do and I'm passionate about crafting awesome applications that people can enjoy using.

My journey into web development started with a curiosity about the inner workings of the internet. From there, I dove headfirst into learning and exploring all aspects of web development. I've had the opportunity to work on a variety of projects, which has allowed me to gain valuable skills across the entire development stack.
I thrive in collaborative and dynamic environments where I can bring my problem-solving skills and attention to detail to the table. I believe that teamwork and communication are essential for creating remarkable products.
When it comes to front-end development, I'm well-versed in HTML, CSS, and JavaScript. I'm also familiar with modern frameworks like React.js and Next.js, which I use to build beautiful and user-friendly interfaces.
On the back-end side, I have experience with the server-side programming language Node.js. I've worked with the framework Express to build robust and scalable web applications. I'm also comfortable working with databases like SQLite and MongoDB.

In addition to my technical skills, I'm a firm believer in writing clean and maintainable code. I strive to follow best practices and industry standards to ensure that my code is of the highest quality.
Ultimately, my goal as a developer is to create meaningful and impactful solutions that make a difference in people's lives. I'm always on the lookout for new challenges and opportunities to learn and grow.
If you're interested in connecting or have any exciting projects in mind, please don't hesitate to reach out. Let's join forces and create something amazing together!

Experience

ZestIoT: IoT/AI powered connected operations platform
UI Developer
June 2023 - Present (1 month)
Hyderabad, Telangana, India

Pulse Active Stations Network
Junior Software Developer
August 2022 - June 2023 (11 months)
Hyderabad, Telangana, India
